

Friday, 22 May 2009
is
Fatality Free
FRIDAY

One special day to take extra care on the road.

On average, 5 people die in road crashes every Friday. Let's keep Australia's roads fatality free for just one day.

Drive to stay alive on Friday, 22 May 2009.

- Each time you get behind the wheel, be mindful of safe driving.
- Put your lights on for safety.
- Be patient with other road users, including cyclists and pedestrians.
- Don't speed. Slow down in the wet.
- Don't drink and drive.
- Tell family, friends, neighbours and colleagues that Friday, 22 May 2009 is Fatality Free Friday and ask them to take care on the roads.
- Write a letter to your local newspaper at least one week prior to the day telling them about Fatality Free Friday.
- Consider organising a road safety activity.
- Remind your family members that you love them and ask them to take care when they get behind the wheel.
- Make sure children are wearing helmets while playing on bicycles and remind them to watch out for cars and other road users.
- Parents, take extra care in school in set-down zones.
- While you're out and about, remember how your family would feel if you had an accident.
- Set a good example to your children (or even your parents!) by driving calmly and safely.
